## TECHNICAL INFORMATION

# Tannin Remover

### Description

Tannin Remover is a specially formulated destainer for the removal of stubborn stains from cups, crockery and plastic materials.

### Features & Benefits

- Contains active oxygen for the effective removal of tea, coffee and fruit stains.
- Formulated with a blend of scale inhibitors and alkalis for the removal of dried on food from cups, crockery and plastic materials.
- Removes stubborn tannin stains including those derived from tea, coffee & wine.
- Effectively assists in the removal of other residues including burnt on food residues and starch.
- Easy to use, free-flowing powder.
- Suitable for all surfaces commonly used in the kitchen.

### Use Instructions

#### Soaking

1. Use at a concentration of 10 – 20g / litre.
2. Dissolve Tannin Remover in warm water (40 – 50°C).
3. Immerse the items to be soaked in the pre diluted solution.
4. Leave to soak for up to 60 minutes depending on degree of soiling.
5. Under normal applications the product will be effective after 15 to 30 minutes.

To prevent damage do not soak plastic items or decorated china for longer than 30 minutes.

### HAZARD AS SUPPLIED

Causes severe skin burns and eye damage.

### HAZARD WHEN USED AT RECOMMENDED DILUTION

Not classified. Wear gloves for prolonged use

## Safe Handling and Storage
